Specialty Units

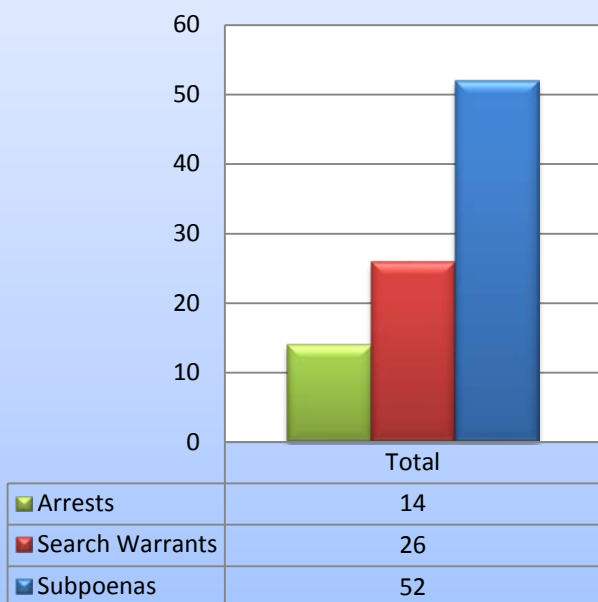

Internet Crimes Against Children

The Waukesha Police Department Internet Crimes Against Children (ICAC) Unit is comprised of four Detectives and one Sergeant. Two of the Detectives are trained in Computer Forensics (CFU) and Peer to Peer Networking. The other two Detectives have received training in Undercover Chatting. All four Detectives have other job responsibilities. This specialty unit is led by Sergeant Jerry Habanek.

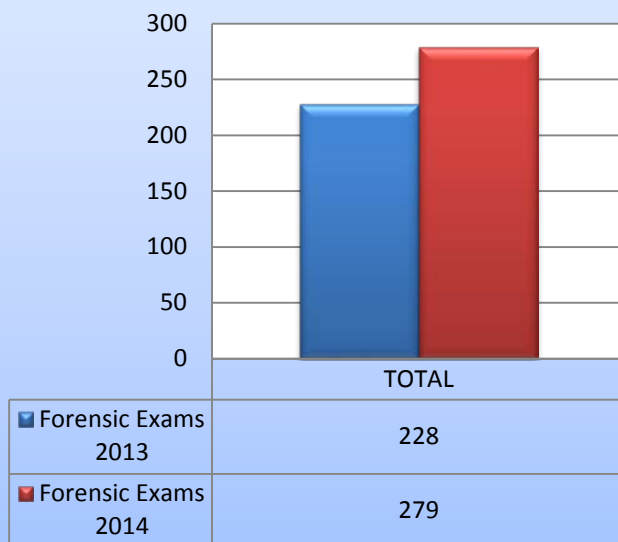

The increase in the amount of forensic exams did not necessarily indicate more suspects or arrests for ICAC related cases. Instead, it indicates an increase in cases that are assisted with forensic analysis during investigation. This improved capability has made other investigations more concrete by providing digital evidence from cell phones, laptops and other digital devices.

The first graph below shows the amount of court actions (52 Subpoenas and 26 Search Warrants) and arrests (14) that were taken in 2014. The second graph below shows the amount of forensic exams on digital devices analyzed and preserved as evidence to assist in various investigations.

These investigations led us to 2 drug related search warrants, and 5 drug related buy busts. In creating the 57 drug related defendants, NAVU Detectives performed 81 drug purchases. This unit is led by Sergeant Dave Wanner. See the below chart for the breakdown of drug deals with the corresponding seizure amounts for 2014:

2013	37	21M 16F	19-87	44

Conclusion

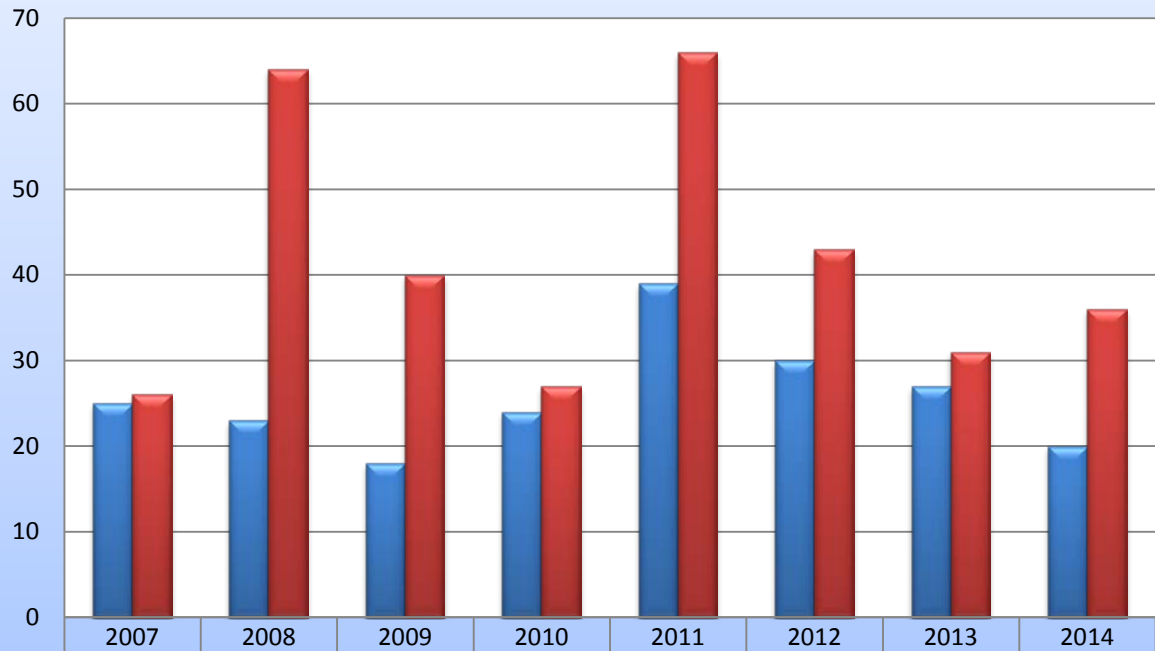

We continue to see heroin and prescription pills as our main threats to our local citizens. Therefore, the goal for the Narcotics and Vice Unit for 2015 will continue being driven toward increasing the amount of attention and caseload on heroin and opiates to help bring about an adverse effect on the overdose problem and save lives. Furthermore, by attacking the heroin and opiate problem, we hope to decrease the number of property related crimes in our city.

However, the Waukesha Police Department continues to utilize DREs from other jurisdictions if their DREs are not available or off-duty. The DRE program is led by Lieutenant Joe Hendricks. See the below chart for the breakdown of impaired driving violators for 2014:

Conclusion

Impaired driving continues to be a prevalent problem in the Waukesha Community. The Waukesha Police Department remains very proactive in the apprehension of impaired drivers. For 2014, there were four OWI crashes causing injuries and zero fatalities due to OWI. As more Waukesha Police Officers receive advanced training in drug impairment through courses such as Advanced Roadside Impaired Driving Enforcement (ARIDE), the ability to detect such violations should increase. Therefore, it is our goal for 2015 to remain proactive in OWI enforcement and strive to make the highways a safer place.
